Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Drawings

The drawings are objected to because of the following informalities:

In Figure 1, an arrowhead that points towards the image forming portion should be placed on the lead line extending from reference numeral 10.

In Figure 1, an arrowhead that points towards the cleaning device should be placed on the lead line extending from reference numeral 30.

In Figure 2, an arrowhead that points towards the cleaning device should be placed on the lead line extending from reference numeral 30.

In Figure 3, reference numeral "36" and a lead line with an arrowhead that points towards the cleaning device should be added to the drawing.

In Figure 4, reference numeral "46" and a corresponding lead line should be added to the drawing in order to identify the web sheet identified in the specification.

In Figure 4, an arrowhead that points towards the cleaning device should be placed on the lead line extending from reference numeral 48.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 23-25 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-3 of U.S. Patent No. US 6,661,983 B2. Although the conflicting claims are not identical, they are not patentably distinct from each other because Claim 23 is identical to Claim 1 of the patent except that "runs between the surface of the developer image carrier and the first cleaning member in a state put over the first cleaning member and" has been deleted from Claim 23. It is noted that the removal of this limitation does not make Claim 23 patentably distinct from Claim 1 of the patent since both Claim 23 and Claim 1 of the patent still claim essentially the same cleaning device. Further, Claim 24 is word for word identical to Claim 2 of the patent and Claim 25 is word for word identical to Claim 3 of the patent.
